

Data For Good Statement

Embracing **Data for Good** principles is the cornerstone of our approach at Talking Medicines. We are committed to upholding Data for Good principles in all facets of our operations. We believe that data has the power to drive better health outcomes, and we are dedicated to harnessing this potential responsibly and ethically. Our approach revolves around leveraging data to address societal challenges, promote transparency, protect privacy, and foster inclusivity. We prioritize collaboration with parties who share our commitment to using data for social good, and we continuously strive to innovate in ways that positively impact communities while upholding the highest standards of integrity and respect for individuals' rights. By adhering to Data for Good principles, we aim to make a meaningful difference in the world while ensuring that data remains a force for progress and empowerment.

“Talking Medicines social mission is to improve patient outcomes.”
