

Company : Talking Medicines Limited

Job Description: Experienced Native App Software Engineer

Location: Home based

Salary: Dependent upon experience

About Talking Medicines

We are a data tech Company, established in 2013, working in Healthcare at an exciting stage in our journey. **During this challenging time of COVID-19 we are seeking a talented software engineer that has native App experience to code and oversee the development of our care connect calling service.** We are a small team with a great opportunity for personal and company growth in both the UK and Internationally. Due to the importance of this role the successful candidate would be initially working for Elizabeth Fairley, Cofounder & COO of Talking Medicines.

Care Connect is a secure 1:1 video consultation system built for healthcare professionals, with patients at the heart.

A secure and managed App based video consultation system that allows one-way scheduling and calling between healthcare professionals and their patients. Bespoke web-based content management system (CMS) supports the Apps ensuring your organisation controls all access and video calls.

What you can expect as a Software Engineer

- A supportive, trusting and transparent working environment
- A fast pace of work with real measured achievements
- An opportunity to lead & shine in creating growth opportunities for our care connect calling service

We are looking for

- Native App coding experience, specifically Kotlin and Swift languages
- Ability to take a lead role in the project manage through JIRA as demand for the product scales
- Experience of API, App (Android & iOS) and Website development, deployment & hosting
- Google Firebase Database technology – experience in set up, hosting and security
- Ability to run database queries to analyse, check and build data value
- Experience of different data formatting (XML, JSON, HTML etc.)
- Knowledge of reporting packages and analytics software – writing code to visualize and audit data generated

About you

- Enjoy working in a lean & agile team
- Confident & self-driven
- Organised
- Analytical
- Curious to find answers

Why Us?

Right now the need for tele-health has never been so important. As people begin to self-isolate there is a need to support the healthcare system to help to manage the care of COVID-19 patients. We hope that our Care Connect solution can be used across the world to help to connect patients safety with their healthcare professionals.

This is a fantastic opportunity to work with a fast growing, creative company that aims to make a difference to people's lives.

We hope that we can quickly find the right candidate – if of interest please get in touch today and share your CV. Please contact us at info@talkingmedicines.com for more information.
